

A Tradition of Family

Founded in Mason in 1968 by Lloyd and John Hayhoe, Hayhoe Asphalt Paving is the oldest continuously-owned asphalt company in the mid-Michigan area. Today, the business is continued under the ownership of John Hayhoe and his daughter, Amanda Hayhoe-Kruger.

A Tradition of Value

One of the benefits of having been in business for 40 years is that we have been able to weed out inferior products and choose those that are better suited to the mid-Michigan climate. We have also had the opportunity to locate suppliers with superior materials at competitive prices. These factors, combined with our competitive bids and high-quality service, have shown our customers that Hayhoe Asphalt provides the best value for their asphalt and asphalt maintenance projects.

A Tradition of Service

Since 1968, one of the core tenants of our company has been that the owner supervises all asphalt projects from start to finish. This means that John or Amanda is at the job site talking with you about your project, is at the site preparing your project, and is operating the paving machine for your project.

This continuity of service helps to ensure that all projects are completed to your specific expectations.

A Tradition of Quality

After four decades of completing asphalt projects in mid-Michigan, we have developed a comprehensive knowledge of the best practices and the best materials to utilize for your specific project. Our staff has been trained to our exacting standards and takes pride in building a Hayhoe project, as evidenced by the numerous compliments we have received from our customers. Whether it's an asphalt, sealing or crackfilling project, we know exactly what to do to ensure you will receive a quality, lasting product.

A Tradition of Customer Satisfaction

We have over 5,500 satisfied customers in mid-Michigan. Our guarantee to you is that we will take the same pride in our workmanship on your project as we have taken on all previous jobs. When you request your free estimate, we can provide you with references of projects completed within your neighborhood and you can see the quality of a Hayhoe Asphalt project. So call us today and discover for yourself why we have remained the area's oldest continuously-owned asphalt company.

Our Services

In addition to the asphalt paving services we provide to our residential and commercial customers, we offer a full range of complimentary asphalt services.

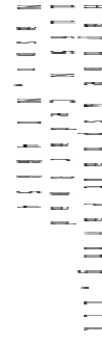

Sealcoating - Scheduling the regular sealcoating of your existing asphalt not only beautifies it, but also helps to protect it from our harsh winters, oil, gas and salt damage, and general wear and tear that occurs with normal usage.

Crack Sealing - Prolong the life of your existing asphalt by sealing off large cracks with hot rubber crack filler.

Patching - Utilizing the same asphalt we use in our driveways and parking lots, we can patch any area of your asphalt that needs repairing.

Catch Basin Repair - It is not uncommon for catch basins to "sink" into the asphalt after many years of service. We can raise these catch basins back to appropriate heights and provide any necessary asphalt repairs to the surrounding area.

Striping - Are the lines in your parking lot looking dull? We can refresh your existing lines or add new ones . We can also help to ensure you are complying with federal regulations by applying handicap stencils in the appropriate areas.
